Your grade is based on the process as well as the final result. Show all your steps clearly so you will be eligible for the most partial credit. You may use a calculator, but no notes, books, or other students. Good luck!

1.) (5 pts.) Let \( h(x) = f(x) + 5 \).
   
   a.) (3 pts.) How are the graphs of \( f \) and \( h \) related?

   b.) (2 pts.) If \( f(100) = \sqrt{2} \), what is \( h(100) \)?

2.) (5 pts.) Explain why the expression \( \pi^x \) defines an exponential function but the expression \( x^\pi \) does not.
