A Resolution
Desiring the Elimination of Puddles on Campus Walkways

Whereas, there are large depressions in the walkways leading from Pettengill Hall to the Library quad;

Whereas, excessive rain and snow cause large, muddy puddles to form in these depressions, which, as a result, block most of the walkways;

Whereas, these walkways often carry heavy traffic during busy hours of the day; and

Whereas, the insufficient space on the walkways forces people to walk through puddles and mud during these busy times of the day: Now, therefore, be it

Resolved,

That, the Representative Assembly desires Physical Plant to fill the depressions in the area of the map depicted below with gravel or by another method;

That, the BCSG president, Bill Jack, notifies the Physical Plant Advisory Committee about this resolution; and

That, a member of the Physical Plant Advisory Committee reports back to the Representative Assembly during a regular meeting at the beginning of the Winter 2007 semester regarding the status of this request:

Maddie White '09
Representative, Adams Hall

LEGISLATIVE ACTION
Monday, December 04, 2006:
Originally proposed and passed.
