Practical 2011 - 242

Here is the schedule for the practical next week. Please come at your scheduled time to lab room 524 (window lab) to start the written exam. We will call you over to other lab to do the hands-on as space comes available. Please bring a calculator, and we will have a few to share as well.

No phone calculators, please.

NOTE: Afternoon lab groups in the _first session_ may come as early as 12:30 to start the written part. If you are in the third time slot and (1) get extra time for exams, or (2) have an athletic practice at 4 pm, please let me know by Sunday and I will arrange an earlier start time for you.
